## EXPERIENCE

---

### Business Account Manager

Nov. 2020 - Feb. 2021

Telus Argyle Mall | London, On

Manage both consumer and commercial client accounts. Directly expand the customer group by acquiring new customers through both in-person sales tactics as well as advertising.

#### Key Responsibilities:

- Acquired and managed over 50 customer accounts.
- Customer service and technical support.
- Communicating and promoting promotions to customers.

### Student Teaching Support Internship

June. 2021 - Sept. 2021

Western Faculty of Engineering | London, On

#### Key Responsibilities:

- Designed the first Semester project for ES 1050.
- Worked on improving the learning experience for the next generation of students.
- Provided insight and student perspective to the course instructors.

### Design Team Lead

Dec. 2018 - Jan. 2020

Spartan Robotics | London, On

- Led team of **50 students** to several awards including **ranking in the top 10 teams** at the York University event.
- **Managed a budget of \$60,000** and allocated team resources for designing and constructing a competitive robot in a **6 week period**.
- Improved the team's performance from a bottom-ranking team to a top 10 qualifier over the course of one season.
- Presented 4 skill workshops for incoming students.
- Designed 2 competitive robots over the course of 2 years

### Co-founder and Administrator of the Western Engineering Community Server

June. 2020 - Present

Self Employed | London, On

Responsible for day-to-day managerial tasks of administering and moderating a community chat server for nearly **1300 Western Engineering students**.

#### Key Achievements:

- Created a thriving and supportive virtual community space for nearly 900 students during the pandemic, when many students felt a lack of community connection.
- Acquired nearly 700 members in the first 3 months of operations.
- Lead a team of 10 moderators through moderating the daily activity.
- Wrote a custom automated bot using **Python and the Google Docs API** for producing a weekly schedule to help keep students up to date school deadlines.
